HPCL RECORDS STELLAR PERFORMANCE IN A CHALLENGING **ENVIRONMENT**

he International Oil market faced an unprecedented volatile environment in 2020, impacted massively by COVID-19 pandemic, restrictions imposed during consequent lockdowns and the resultant

demand collapse. Subsequent relaxations announced by concerned authorities helped in quarter on quarter improvement in demand with December 2020 recording highest consumption of petroleum products in last 11 months i.e. after January 2020. The aggregate demand of petroleum products for the period April -Dec 2020 reached 88% of the demand for the same period last In the backdrop of such a challenging environment, Hindustan

Petroleum Corporation Limited has recorded Profit after Tax (PAT) of Rs 2,355 crore for the quarter ended 31st December 2020 vis a vis a PAT of Rs 747 crore during the same period last year marking a significant increase of over 3 times. For the period April-December 2020, HPCL recorded a PAT of Rs. 7,646 crore vis a vis PAT of 2,610 crore during the corresponding period of previous year signifying a jump of 192% The combined GRM for the period April - December 2020 works

out to US\$ 2.35 per barrel compared to US\$ 1.85 per barrel in the corresponding previous period. The combined GRM for the period October-December 2020 is US\$ 1.87 per barrel as compared to US\$ 1.79 per barrel in the corresponding previous period. During October-December 2020, the domestic sales of petrole-

um products of HPCL increased to 10.03 million metric tonnes registering a growth of 2.7% over the corresponding quarter of previous year compared to industry growth of 0.30 %. The sales of MS (Petrol) increased by 6.4%, HSD (Diesel) by 1.2

% and LPG by 5.9%. While the growth rates of HSD & LPG were higher than the Industry average, the growth of MS was at par with the Industry. Other Industrial products like Bitumen & Naphtha also witnessed growth of 18.3% & 14.60% respectively over the corresponding period of previous financial year. Total domestic sales of petroleum products of HPCL during the

period April - December 2020 was 25.4 million metric tonnes against 28.5 million metric tonnes during the corresponding period of 2019-20. HPCL achieved an overall combined capacity utilization of over 100% at its refineries by optimizing day to day crude run rate and regulating the product procurements from other sources during such challenging times. The refinery thruput for the guarter October - December 2020 was 4 million metric tonnes compared to 4.16 million metric tonnes during the corresponding period of last year. HPCL refineries processed 12.03 million metric tonnes of crude during April-December, 2020 as against 12.64 million metric tonnes during the same period last year. HPCL is the largest exporter of lubricants among OMCs for April-December'20. Total 11.3 TMT of Lubes were exported during the period. More than 20 TMT of other industrial products were also exported during the period and new geographies were added to its market reach.
