The above un-audited financial result has been reviewed by the Audit Committee and approved by the Board of Directors in their meeting

held on 14th February, 2022 The Statutory Auditors of the company have carried out the Limited Review of the results of the Company and issued a Limited Review Report, now attached herewith

The company had invested huge resources in developing technology, infrastructure, marketing, pror fulfillment services over the last years in order to expand its retail network and customer base for its Internet Retail business. Since it was an innovative process of Retailing where the company orchestrates 3rd party physical retail stores with virtual inventory, the business model required continuous investments till it reaches the breakeven point and turned profitable. In March 2017, the company had been model required continuous investments unit reaches the breakever point and turned profitable. In March 2017, the company had been classified into the Graded Surveillance Measure (GSM) list by BSE. The criteria for classifyed he company into GSM was not very clear to us. The direct impact of classifying company in GSM by BSE had led to trade restrictions and a complete 'roadblock' in terms of raising additional capital from new investors. Thus new fund raising had became an extremely challenging and a daunting task. At present the company is placed in stage 3 of GSM list. Consequent to classifying into GSM and failing in raising fresh capital for Internet Retail businessthe business, the company has suspended it's Internet Retail operation wef 1st April, 2017. The company is exploring various opportnities and partnerships in order to revive its business activities and shall be coming up with its new business plan soon. In any case, it is continued to be a 'going concern' as it has initiated theprocess of issuing Equity Share Warrants to raise fresh capital for its

new activities.

The SARS-CoV-9 virus responsible for Covid-19 has contributed to a significant drop in global and local economic activities. During this period (over 24 months) the company's revival plan of its business activities was impacted either in the form of delays or completely dropping of the new business plan. The Company has considered and concluded that there is no material impact that may result from COVID-19 in preparation of these financials results, including recoverability of assets. In developing the assumptions relating to future uncertainties in the economic conditions due to COVID-19, the management has, at the date of approval of these financial results, used relevant internal and external sources of information including economic forecasts and expects that the carrying amounts of these assets are recoverable. The impact of COVID-19 may be different from that estimated as at the date of approval of these financial results. Previous period/year figures have been regrouped re-arranged, wherever necessary, to confirm to current year/quarter presentation
